PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (I) unidentified facilities or tracking activity.

## SUMMARY

25X1D

25X1D

A secured POL storage area is located on the southeast edge of Lida, just north of a rail spur which extends to the Lida Airfield (Figure 1). The installation is served by a branch spur from the Lida-Baranovichi rail line. All-weather road connections provide access to the Molodechno-Volkovysk and Lida-Slonim highways. The installation covers approximately 11 acres and contains 15 vertical POL storage tanks and four small associated buildings.

The Lida Army Barracks (AL-1) is located 4 kilometers (2 1/2 mi) northwest (Figures 2 and 3).

The area was covered by [REDACTED] TALENT photography and six KEYHOLE missions between [REDACTED]. Comparative analysis reveals that nine tanks and four buildings have been added since [REDACTED]; however, the size of the over-all area has remained approximately the same.

25X1D

## DESCRIPTION OF INSTALLATION

25X1D

## Railroad Service

A single track rail spur from the Molodechno-Volkovysk rail line serves the installation.

## Road Service

All-weather roads provide access to the Molodechno-Volkovysk and Lida-Slonim highways.

## POL Storage Area

Nine [REDACTED] foot diameter vertical POL storage tanks and four support buildings are located at this facility (Area G, Figure 3). Seven [REDACTED] foot tanks and the four support buildings have been added since [REDACTED].
